

The Learning Program

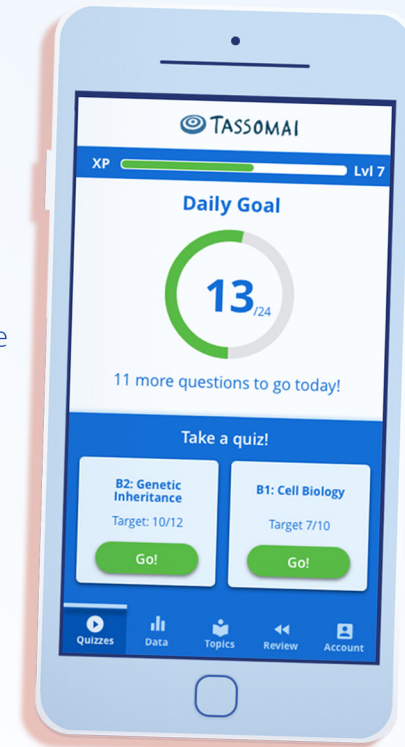

Tassomai is an online learning program helping thousands of students achieve outstanding results in GCSE science.

The program's intelligent algorithm learns a student's strengths and weaknesses and ensures the content they see is tailored to each individual. Meanwhile, usage data is fed back to schools so teachers can use it to plan lessons and target intervention. Tassomai **builds knowledge**, **boosts confidence** and **reduces exam stress**.

We have taken the syllabuses and broken them down into **quizzable micro-facts**, covering everything students need to know for their exams.

Tassomai is used by years 9, 10 and 11, and it's **board specific** so you can be sure that your students are studying the right content.

The program encourages **spaced learning** and the **interleaving** of different subjects and topics. By **spreading learning** over as long a period as possible it aids knowledge retention and makes exams less testing for everyone.

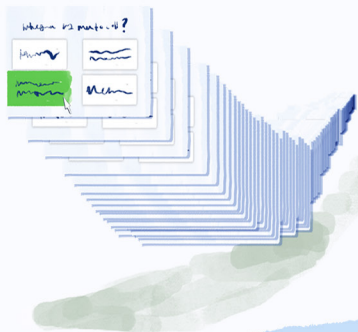

Last academic year  
**TASSOMAI** was used by:

78,830 STUDENTS

& 492 SCHOOLS

ANSWERING A TOTAL  
OF 243,539,103  
QUESTIONS

Tassomai gets results!

90% of students that used Tassomai regularly achieved C or above in their GCSE science exams... and 50% of them got an A or A\*.  
(2017 data. 2018 being collected)

"We introduced Tassomai with a goal to improve our science results from the lowest 20% in the country to being at the national average - in fact we are now in the top 20% in the country!"

- Carole Dean, Deputy Headteacher, The Stonehenge School

"Tassomai helped students develop a solid understanding of the content enabling us to focus on teaching application skills, significantly improving our results."

- Mr F, Head of Science, North London

		Overall	Biology [AQA]	Chemistry [AQA]	Physics [AQA]
Class average		●	●	●	●
Student 1	🔍 🛠️	●	●	●	●
Student 2	🔍 🛠️	●	●	●	●
Student 3	🔍 🛠️	●	●	●	●

On Tassomai, teachers can see at a glance where individual students and entire classes are excelling or struggling.

Using the "Understanding Grid" they can get live feedback to help them target intervention and drastically reduce time spent on assessment, marking and analysis.

"Tassomai is revolutionary! It has changed my attitude towards science and it took the stress out of my exams."

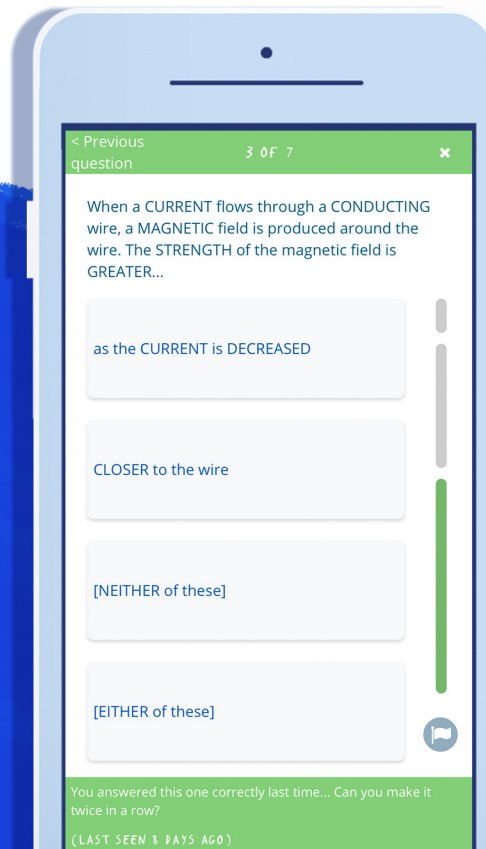

- Tom, Year 10 Student

"It's literally the best homework anyone could set!"

-Year 11 student, Richard Lander School, Truro

Students can learn at home, at school or on the go.

The Tassomai App makes it easy for students to get in the habit of quizzing for short periods of time at regular intervals.

Tassomai organises a student's revision and learning for them, the program combines 3 things...

1 Techniques from sports and music coaching that help athletes and musicians perform to the best of their ability.

2 Academic research into the most effective ways to revise, such as interleaving and spacing.

3 Technology, to make learning more personal.
