Learn, Play and Grow with Emile

Multiplayer

Students can compete against classmates, with other classes or even against the whole world to see who is the best and fastest!

Print out a leader board, give certificates for good performance and create vivid display boards to encourage use in your school.

Virtual Pet

Students feed, play and grow with their own personal virtual pet!

Every student gets their very own Emile to look after.

Encouraging regular use and rewarding improvement, students earn coins which can be spent on buying costumes, food, backgrounds, music and mini-games.

Resources Available:

- Times Tables
- Fractions, Decimals & Percentages
- Spelling
- Grammar
- Measurements
- Addition
