

# HUMAN HEROES<sup>®</sup>

**Play with history's greatest minds!**

- No in-app purchases
- No subscription or sign up required
- No internet or wifi connectivity required, works completely offline

## The FULL suite of titles includes:

### **EINSTEIN ON TIME** **Physics with Stephen Fry**

Learn how to tell the time [a National Curriculum learning area] and experience the passage of time to understand how it's affected by speed and gravity.

### **CURIE ON MATTER** **Chemistry with Miriam Margolyes**

Discover atoms, states of matter, the mysterious nature of radioactivity and unlock all the elements of the periodic table, through the incredible life of Madame Marie Curie!

### **EINSTEIN'S CLOCK** **Time with Stephen Fry**

As taught in the classroom from Reception to Year 5, children spin hour and minutes hands to learn how to tell the time in different configurations: O'Clock, quarter and half, past and to as well as Roman Numerals, AM/PM and 24-hour time.

### **COUNTING FUN** **Time-tastic fun with Einstein!**

Learn to count seconds as you fill your screen with colourful balloons across tons of levels and compete with friends and family with score streaks and leaderboards for even more educational fun!

***Even more heroes coming soon!***

**Up next:** A Human Heroes app, all about the quintessential **Leonardo Da Vinci!**

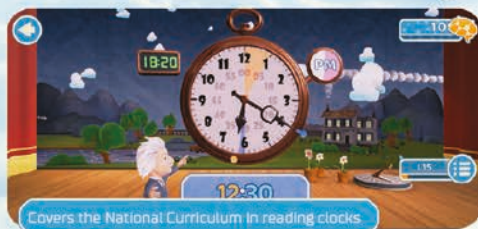

**Still to come:** Discover the incredible legacies of Isaac Newton, Mozart, Ada Lovelace, Aristotle, Jane Austen and many others!

**Love the games?  
Leave a store review!**

A sockless, dancing Albert Einstein hosts multiple time-bending shows in a futuristic theatre above the clouds. The shows flow through games about readings different kinds of clocks, experiencing the passing of seconds and minutes and demonstrating Einstein's theories of relativity, including the effects of speed and gravity time dilation. Let Einstein inspire and encourage young minds with stories from his extraordinary life!

The Human Heroes show continues! Join Marie Curie and discover her amazing life; from her early upbringing in Poland to her arrival in Paris, the outbreak of the First World War and eventually, recognition as a historical icon. Along the way, kids will learn the most incredible facts about the states of matter, radioactivity, atoms, physics, and so much more!

## How to grab your Human Heroes games from the App Store (Apple devices)

**Step 1:** Tap on the App Store icon

**Step 2:** Click on the search bar and type "Human Heroes"

**Step 3:** Tap on the Human Heroes games you'd like to install and hit Download!

## How to grab your Human Heroes games from Google Play Store (Android devices)

**Step 1:** Tap on the Play Store icon

**Step 2:** Click on the search bar and type "Human Heroes"

**Step 3:** Tap on the Human Heroes games you'd like to install and hit Download!

We're Kalamtech, a video game studio based in the heart of London developing high-quality, educational mobile games for children centered on real-life heroes from history, including Albert Einstein and Marie Curie.

Having successfully accumulated 20,000 downloads across all Human Heroes titles, we want to bring Human Heroes to your classrooms in the UK and beyond! Having already successfully integrated ourselves in the classroom in a primary school in London, England, on a goodwill basis.

## KALAMTECH

### OUR VALUES

#### **Genuinely Educational experience**

- Embed topics from the UK National Curriculum.
- Real life UK educators as part of the team.
- Scaffolding learning techniques in our games.

#### **High-Quality Production Value**

- Accessible gameplay.
- Stunning visuals.
- Wonderful sounds and music.
- World-renowned, award-winning voice actors:
  - Stephen Fry
  - Miriam Margolyes

#### **Classroom proven**

- Currently used at a primary school in London.
- Facilitating learning key subjects in science.

#### **Critical Acclaim Across the Spectrum**

- Education App of the Year.
- Children's App of the Year finalists @ UK App Awards.
- Excessive featuring from Apple.
- High praise from teachers, parents, influencers and press.
