HELP YOUR FACULTY TRANSFORM GRADING INTO LEARNING

gradescope
by turnitin®

Gradescope is the leading assessment and feedback platform that helps scale your high-demand STEM, Economics, and Business courses. Leveraging digital rubrics and AI, **we have helped over 600 universities and 10,000 instructors cut grading times by up to 80%**, increase grading consistency and quality of feedback, and dramatically improve instructor/TA workflow vs. traditional grading.

Gradescope Impact

DRAMATICALLY CUT GRADING TIME

Gradescope's AI-assisted grading and flexible rubrics reduce time spent on grading, so they can spend more time teaching.

"Gradescope is a game changer. In large enrollment classes with multiple TAs, it is much easier now to have graders work in parallel grading homework and exams."

— Phill Conrad, UCSB

SCALE PERSONALIZED AND PROMPT FEEDBACK

Enable instructors to promptly provide individualized, actionable, and formative feedback to students, increasing learning outcomes and retention.

"Gradescope is rocket fuel for grading. My students love getting feedback just a few hours after their quizzes — a pace I can only achieve with Gradescope."

— Warren Hoburg, MIT

UNDERSTAND LEARNING TRENDS

Get per-question and per-rubric item statistics to identify gaps in knowledge and help instructors modify content and administrators evaluate course trends.

"The best thing is having the scoring details online. This lets us share more with the students. And later, we can analyze how well the questions worked, when we are not in the middle of the grading rush."

**— Cliff Shaffer, Virginia Tech**

REDUCE BIAS AND INCREASE CONSISTENCY

By anonymizing answers and creating a consistent rubric across graders, university leaders can take an active role in creating an anti-bias learning environment.

"You can review all grades across the class and decide whether you think the grading has been fair and review everything, make changes, etc., before publishing grades to students."

— Jennie D'Ambroise, SUNY

Gradescope digitizes the grading process to help you scale your fastest growing programs

HOW DOES IT WORK?

① DIGITALLY COLLECT AND UPLOAD WORK

Quickly scan work from tests, homework, and quizzes into the Gradescope platform and integrate into your LMS

② GRADE ONLINE FROM ANYWHERE

Grade efficiently and consistently using AI, autograding, and digital rubrics for surprisingly fast evaluations

③ EASILY PROVIDE ACCURATE FEEDBACK

Digitally send assessments back to students with helpful and timely feedback for better learning outcomes

④ RECEIVE POWERFUL REPORTING

Get real time detailed reports on students, courses, and departments to help manage student competencies and teaching impact

GRADESCOPE BY THE NUMBERS

10,000
Instructors using Gradescope

70,000
Total hours of grading time saved

478,653
Students using Gradescope

1,000,000
Assessments graded

GRADESCOPE IS USED BY 600 INSTITUTIONS AND GROWING, INCLUDING:

NYU   PURDUE UNIVERSITY   HARVEY MUDD COLLEGE   THE UNIVERSITY of NORTH CAROLINA at CHAPEL HILL   Penn UNIVERSITY of PENNSYLVANIA
