

A comprehensive Online Safety & Safeguarding toolkit for the whole school community

Gooseberry Planet is an award-winning software platform, which is designed to educate children, teachers and **parents** about the dangers online through **game-based learning**. In other words, we offer a fully interactive and engaging game platform from which children can learn to use the internet responsibly and safely. The software is intended to be used both in schools and at home: it offers a child-centered and coordinated approach to safeguarding and is **totally unique** as it also offers an assessment and monitoring system for both teachers and parents. We have created a 12-month programme for each and every child in every year of School (5-13 years-old). Gooseberry Play consists of three portals that work alongside each other:

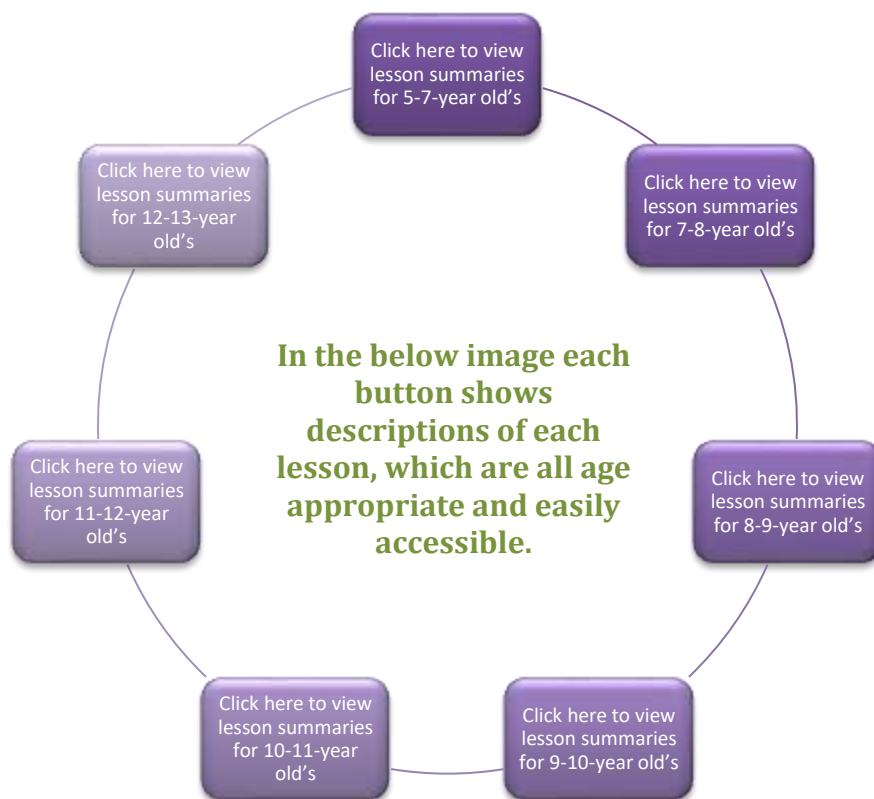

The **Gooseberry Teacher** platform is also full of resources, including workbooks, lesson plans, handouts and much more. The programme is a pickup and go, teachers are too busy to research, the work has been completed already. Each lesson has been designed to educate the teacher before any lesson begins. It will guide a teacher through the lesson as every element of resource and referred.

Gooseberry Teacher works with **Gooseberry Student**; this allows the teacher to monitor the class whilst playing in lesson or at home. The software will show if a student isn't responding in the correct manner. The key is highlighting who is potentially vulnerable. It also controls exactly what the class is playing to students to not move onto the next lesson.

In the below image is an overview of our 12-month programme. Each lesson is support with workbooks, lesson plans, classroom PowerPoint, workbook answers and parent handout.

Gooseberry Teacher's dashboard consists of:

- Results Panel with learning outcomes
- Highlights Vulnerabilities
- Individualize the learning on student reports
- Assessment tool for individual students
- Improvement scores
- Pre & Post Rapid Fire Quizzes
- Coming soon interactive videos for 4-5-year old's
- 50 games
- 60 workbooks
- 50 lesson plans
- Pre lesson guidance on difficult subjects
- Classroom PowerPoints, Parent Handouts and classroom resource such as posters
- Complete monitoring system of each game
- No limit on the number of teachers that can be added to the software
- 12-month access
- Professional development
- Covers ICT, PSHE, UKCIS framework and some of the English Curriculum

Gooseberry Student allows your students to play our engaging game and learn through consequence. As they play their reactions to 'real life' scenarios are recorded. There is also a workbook that compliments the game and creates a conversation with the teachers and classmates. The feedback from Students has been very positive, to the point where in some schools (who have relaxed their mobile phone usage) the game is being played during break times and out of school.

- 📱 Different levels for each age group (5-13 years old)
- 📱 5 levels with 10 games per level
- 📱 Advice with each scenario in the games
- 📱 Benchmark quiz (Rapid Fire Quiz Pre & Post)
- 📱 Added resources as and when they are created
- 📱 12-month programme teaching online safety education in each year of school (up to 13 years old)
- 📱 Workbooks
- 📱 Leaderboards
- 📱 12-month access

Gooseberry Parent allows the parent to see how **their** child is reacting within the games. By downloading the app, the platform will notify the parent every time their child finishes playing a scenario. It will record each score. The resource area is full of tips and advice for the carer to learn and be part of their child's learning journey. It also gives hints and tips about different aspects of Internet safety.

- 📱 Scenario results via the Gooseberry Planet Platform
- 📱 Results Panel with learning outcomes for their child
- 📱 Parent advice and support for each scenario
- 📱 Video help for platforms such as Xbox, Snapchat, Instagram, YouTube and Facebook
- 📱 Over 30 advice sheets on different apps
- 📱 12-month access
- 📱 An interactive quiz to test the parent's knowledge

Our software is continually being developed and improved as we strive to keep on top of trends and threats, to protect as many children as we possibly can.

GOOSEBERRY GURU:

Why pay for an E-Safety workshop, when we can train you to personally deliver online safety to your school? This is the perfect support for your ICT Lead and E-Safety Lead. We will equip your teachers within your school with all the knowledge and resources they need, saving time on research and preparation and most importantly, giving YOU the flexibility to control, manage and deliver assemblies or workshops at your convenience to students, teachers and parents.

Who are Gooseberry Gurus? Gooseberry Gurus can be any member of staff who has the capacity to share information with children, staff, teachers and parents. They can be a member of teaching staff, an appropriate support colleague or a colleague who is directly involved in delivering Safeguarding in your school. Why not get 16 year old's to deliver to the younger students?

Benefits to your school of becoming a Gooseberry Guru:

-  12-month programme
-  Online Safety & Social Media training for ALL staff & parents
-  A comprehensive range of workshop resources (videos) that can be delivered to students, staff and parents – including workshops on specific topics such as SnapChat and FaceBook.
-  Essential 'how to' guides and practical advice on the safe use and security of popular apps.
-  Access to expert advice and support in response to your online concerns.
-  Use resources and feedback as part evidence for the inspection of safeguarding.
-  12 monthly online safety updates via a webinar, videos or podcasts
-  Professional development for all staff

Gooseberry Planet CPD – E-learning Training

This e-learning CPD's contains training need to meet the statutory requirements in KCSIE September 2019.

Staff can access the training in their own time and at their own pace, via accessible modules, each followed by a short assessment, (parts of which are scenario-based), to check understanding. They may re-visit the modules as often as they wish to improve or refresh their knowledge

Results are available to designated safeguarding leads or Head Teacher so that they can check that training has been completed and identify any areas of weakness. On completion, staff obtain a certificate confirming they have passed. There is a refresher quiz to be completed three months after the main training has been completed.

All schools have access to the training for 12 months, teachers can also be added at any point during the year.

Gooseberry Safeguarding CPD is an Online Safeguarding training programme for all schools and colleges. It has been developed for all staff, including support and site staff associated with a school. Our Safeguarding CPD has been developed in response to the statutory requirements for safeguarding of children in education. This new documentation has been updated, commencing September 2018.

-  **13 modules broken down into 10-minute modules, including: Roles and Responsibilities, what to do if you have concerns for a child, what to do if you have concerns about safeguarding and Contextual Safeguarding**
-  **3-month refresher**
-  **Reporting of progress for every member of staff**
-  **Learning support for 12 months.**
-  **Available via the app stores**

Gooseberry Prevent CPD is in partnership with a highly respected Prevent practitioner and subject matter expert, Gooseberry Planet have developed a comprehensive, accessible CPD that covers all aspects of the Prevent Duty that affect education. It is also the most up-to-date training available, incorporating the recently released **CONTEST Strategy 2018** (which includes significant changes to Prevent) as well as the latest Home Office Channel referral figures which highlight the essential role that education plays in safeguarding young people through Prevent.

The CPD is divided into 7 sections, each one with a short assessment at the end to check understanding. Case studies involving different types of extremism (based on real-life Prevent referrals) are incorporated throughout the module to reinforce the learning and bring the CPD to life.

GOOSEBERRY ALERTS: FREE RESOURCE FOR ALL SCHOOLS

Gooseberry Alerts are sent out every month covering different topics. We focus on what is happening in the online space, such as games, risks and the latest apps. Each alert has an information sheet which can be shared across the whole school community. It will offer talking points and help guides for the both parents and teachers.

-  **Gooseberry Alert** has content for students, staff and parents.
-  Gooseberry **Student** 'Information' of the week
-  Gooseberry **Teacher** 'Opportunity' of the week
-  Gooseberry **Parent** 'Message' of the week
-  Text, Podcast and video formats
-  Monthly webinars

To access the alerts just log on to the platform and register just [**CLICK HERE**](#) to register your schools for **Gooseberry Alerts**.
